- What strategy and approach to use for the preparation of Government exams?

And the list of questions goes on and on. So, to ensure that a candidate follows the best approach, we bring to you 11 key strategies to crack the upcoming IAS/KAS exams:

- **Set S.M.A.R.T. Goals** – Here S.M.A.R.T. stands for Specific Measurable Achievable Relevant Time-Bound. One must keep all these five goals in mind when strategising a study plan. Do not overburden yourself and set achievable goals
- **Self Management vs Time Management** – Ensure that you set targets which you can achieve. Manage your schedule in a manner that sufficient time can be dedicated to the preparation
- **Attend Online/ Offline Classes Regularly** – Choosing either online or offline classes is a candidate's decision but they must ensure that either way they attend the classes on a regular basis and any kind of ignorant behaviour shall affect their preparation
- **Revise on a Daily Basis** – In most cases, it has been observed that one may understand the topic when being taught but due to lack of revision may end up forgetting such concepts. Thus revising things on a daily basis is a must
- **Solve Time-Bound Exercises, Mock Tests & Model Papers** – This will give an examination kind of atmosphere and a better understanding of the type of questions which may be asked
- **Raise Doubts or Questions if any** – Mostly it has been observed that candidates hesitate to ask questions for various reasons but this may act as a hindrance for any competitive exam aspirant. Always ask doubts or questions, if any to ensure that the concepts are extremely clear
- **Choose Coaching/ Institutes/ Teachers Wisely** – Choose the books, study material and resources wisely. Ensure that either online or offline, sufficient study material is provided, separate time for clearing doubts is given and proper revision and tests are conducted
- **Get Your Concepts Clear** – The key to answering any questions is by having conceptual clarity. Ensure that every part of the concept is clear and understandable
- **Focus** – Even if a candidate manages to devote 3 to 4 hours a day for preparation, an absolute focussed study must be done during this time. No kind of distractions must be entertained
- **Solve Previous Year Question Papers** – To understand the standard of exam and the exam pattern, the best solution is referring to the previous year question papers
- **Be Regular, Well Planned & Disciplined** – Having a proper study plan is a must. It is important that before one starts the preparation, he/she is well aware of the subjects, topics, exam pattern and the selection process for the respective exams so strategies a time table devoting equal time to all subjects
