## **6.2 - Strategy Development and Deployment**

**6.2.1 - The institutional perspective plan is effectively deployed and functioning of the Institutional bodies is effective and efficient as visible from policies, administrative setup, appointment service rules and procedures etc.,**

The strategic plan serves as an action plan for enhancing the effectiveness of an institution by evaluating outcomes, with a focus on measuring student learning and institutional operations. This process should involve soliciting input from across the campus and local communities. A strategic plan should provide guidance to all departments on key focus areas. Our college successfully implemented this crucial aspect of the Strategic Plan through the following initiatives:

### **Institutional Strategic Plans**

1. Efficient Teaching-Learning Methodology
2. Effective Leadership and Participative Management
3. Proactive Internal Quality Assurance Cell
4. Ensuring Effective Governance
5. Student's Overall Development through Participation
6. Employee Advancement & Welfare
7. Proper Discipline
8. Women/Student/Faculty Grievance Redressal
9. Financial Planning & Management
10. Memorandums of Understanding (MOUs)
11. Encouragement of Budding Entrepreneurs
12. Constant Growth in Research and Development
13. Alumni Interaction and Outreach Activities
14. Augmenting Physical Infrastructure

### **Deployment:**

The college takes initiatives to implement the above strategic plans for better utilization of available human resources and infrastructure. Students' academic excellence, empowerment, and welfare are of prime importance when formulating the strategic plan. Events deployed include the preparation of a calendar of events, induction programs, cyclic AQAR reports, AAA, and events organized by IQAC/NSS/NCC/various departments/committees, etc.

**Administrative setup:-**

Karnatak University has established administrative strategies and instructed the Principal to implement and execute the rules and regulations to achieve the institution's goals, vision, and mission. At the college level, the administrative hierarchy is headed by the Principal, followed by the Heads of Departments (HODs) of various departments and non-teaching staff. The departmental hierarchy is led by the HOD, with headship assigned on a two-year rotation basis. If there are no permanent teaching staff in a department, the HOD or Coordinator of the parent department will oversee the department. The formal organizational structure of the library includes the Librarian, Assistant Librarian, and other subordinate staff.

**Procedure for recruitment:-** Karnatak Science College is a constituent college of Karnatak University, Dharwad. Permanent teaching and non-teaching positions are filled by the University following the rules set by the UGC and KCSR. Candidates are selected based on merit in all respects by the appointment committee. If a department has insufficient permanent teaching faculty, the remaining workload is distributed to temporary teaching assistants/guest faculties. These temporary positions are appointed by Karnatak University. Temporary non-teaching positions are filled on a contract basis.

Promotion of permanent teaching staff is facilitated through the Career Advancement Scheme (CAS) after fulfilling the required eligibility criteria.

**Service rules:** The service conditions of permanent teachers, including appointments and promotions, are regulated by Karnatak University, Dharwad, in accordance with the rules and regulations stipulated by the UGC and the Government of Karnataka. The service rules of non-teaching staff are governed by the Karnataka Civil Services Rules (KCSR) and the regulations set forth by the University.

**Grievance redressal mechanism:**

The institute has its own grievance redressal committee for both staff and students. The committee reviews the grievances received and resolves them promptly. Depending on the severity of the complaints, they are resolved within the time limit suggested by management. The identity of the person filing a complaint in suggestion boxes is kept confidential. The decision regarding the suggestion is communicated to the relevant committee, cell, or individual of the institute for further action.

On this occasion, a large number of students and faculty members from different departments of Karnatak Science College, Dharwad took an oath to save soil. Dr. Jagaadesh L Kalyan, in charge Principal of Karnatak Science College, Dharwad delivered the vote of thanks.

Prof. G. S. Dasog empowered the students about the importance of saving soil from further degradation. Stating that the country's soil resource was declining rapidly, he said that the United Nations said that the soil must have at least three percent organic matter. However, the soil in the country has only 0.5 percent organic matter. “This not only affects agriculture production but also depletes the nutrients in the food we eat and cause impacts human health”, he added and expressed concern over the possible risk of looming food security threat in the country.

- 5) "TWO DAYS SKILL ENHANCEMENT PROGRAM ON EMBEDDED SYSTEMS USING ARDUINO" (For B. Sc. (Electronics) and M.Sc. (Physics) Students) Department of Physics/Electronics in association with IQAC, Karnatak Science College, Dharwad has organised two days skill enhancement training on "Embedded system using Arduino" for B.Sc. (Electronics) and M.Sc. (Physics) students on 18th -19th May 2022. 32 students participated in the training program. The training programme was inaugurated by Principal, Dr. S.C. Chougala. In his inaugural address, Principal emphasised on developing additional skills along with regular academic programme. Dr. L.T. Nayak, Coordinator, IQAC, has opined that, the quality of the institutions can only be elevated by conducting such training programmes to the younger generation. Prof. M.R. Ranganath H.O.D., Department of Physics, motivated the students to involve actively and make best use of the opportunity. Dr. (Smt.) Nirupama J.M., Coordinator, Electronics, explained about the objectives and importance of the training programme. Embedded systems have become integral part of life. They have wide range of applications such as in automobiles, Digital TV, ATM, home appliances, security systems, Missile tracking system and so on. Any device that includes a programmable computer is an embedded system. It performs specific task but it is not a general purpose computer. The necessity of sensors, transducers, operating systems and sophisticated user interfaces is increasing exponentially hence any electronic device can be easily designed using embedded development board known as Arduino.

In this training, Arduino UNO open source microcontroller At Meg 328P board was used. Resource Persons, Mr. Vinayak Nayak and Mr. Avinash Kambale of Physics/Electronics Department, have trained the students to program the Arduino using C code and accessing the pins on the board via software to control the external devices. In addition, a hands-on training was given to the students on interfacing of LED and LED blinking, Buzzers, LCD, Stepper motor, Finger print sensor, Ultrasonic sensor and Global system for mobile communication.

Chief Guest of the valedictory function, Dr. (Smt) Jyothi S.Bali, Assistant Professor of Automation and Robotics Department of K.L.E. Technological University, Hubli, persuaded the students to develop logical thinking skills in programming to design electronic devices using Arduino. Dr. C. G. Patil, Co-Coordinator, IQAC, highlighted the importance of embedded system in daily life. All the staff members of the Department had participated in the function. Mr. M.I. Charanthimath welcomed the gathering, Kumari Deepa and Lakshmi invocated, Mr. Ranganath Yadav had proposed the vote of thanks. Kumari Navya and Sindhu had conducted the programme.
